**Disclaimer:**

*CHESSER CHEMICALS Pty Ltd provides the information contained herein in good faith but makes no representation as to its comprehensiveness or accuracy. This document is intended only as a guide to the appropriate precautionary handling of the material by a properly trained person using this product. Individuals receiving the information must exercise their independent judgment in determining its appropriateness for a particular purpose.*

## Product: CC10 SANITISER

**HAZARDOUS** according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

**SIGNAL WORD: DANGER**

 **Emergency Response No: 1800 951 288**

### RECOMMENDED PPE

**GLOVES****SAFETY GLASSES**

### Health hazards

H302  
H314

Harmful if swallowed  
Causes severe skin burns and Eye damage

## 1 IDENTIFICATION

### IDENTIFICATION

Product Code:	CCS
Product Name:	CC10 SANITISER
Other Names:	Not applicable
Product Use:	No Rinse Sanitiser for the Food Industry
Restrictions on use:	Use as Directed

### COMPANY DETAILS

Company:	CHESSER CHEMICALS Pty Ltd
ABN Number:	67 008 262 039
Address:	124 Days Road FERRYDEN PARK SA 5010
Telephone Number:	(08) 8406 0000
Facsimile Number:	(08) 8406 0099
Emergency Telephone Number:	CHEMWATCH 1800 951 288

Other Information: This information summarises our best knowledge on the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information

in the context of how the product will be handled and used in the workplace including in conjunction with other products.

**2 HAZARD IDENTIFICATION**

**HAZARDOUS** according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

**Classification of the substance or mixture:**

Skin corrosion/irritation - Category 1  
Eye damage/irritation - Category 1

**SIGNALWORD:****DANGER****Hazard Statements****Health hazards**

H302 Harmful if swallowed  
H314 Causes severe skin burns and eye damage

**Precautionary statements****General precautionary statements**

P102 Keep out of reach of Children

**Prevention precautionary statements**

P260 Do not breathe mists or spray.  
P264 Wash hands thoroughly after handling.  
P270 Do not eat, drink or smoke when using this product  
P280 Wear protective gloves/eye protection.

**Response precautionary statements**

P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
P303+P361+P353 IF ON SKIN (or hair): Remove/Take off Immediately all contaminated clothing. Rinse SKIN with water/shower.  
P363 Wash contaminated clothing before reuse  
P304+P340 IF INHALED: Remove victim to fresh air and Keep at rest in a position comfortable for breathing.  
P310 Immediately call a POISON CENTER or doctor/physician  
P321 Specific treatment (see ... on this label)  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing

**Storage precautionary statements**

P405 Store locked up

**Disposal precautionary statements**

P501 Dispose of contents/container to ... (specify) in accordance with local regulations.

P264 Wash hands thoroughly after handling  
P270 Do not eat, drink or smoke when using this product  
P260 Do not breathe mists or sprays  
P280 Wear protective gloves and eye protection.

**Poisons Schedule (SUSMP):** S5

**3 COMPOSITION****Ingredients**

Chemical Entity	CAS Number	Proportion	Risk Phrases
WATER	[7732-18-5]	> 60%	
Dodecyltrimethylbenzylammonium chloride	[139-07-1]	1 - <10%	H314
Ingredients determined not to be hazardous		Balance	

**4 FIRST AID MEASURES**

**Ingestion:** Do NOT induce vomiting. Wash out mouth with water. Seek medical attention.  
**Eye:** If contact with eye(s) occurs, hold eyes lids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.  
**Skin:** Wash affected area thoroughly with water. If symptoms develop, seek medical attention.  
**Inhaled:** Not considered a probable path of exposure. If inhaled, remove victim from contaminated area. Apply artificial respiration if not breathing. If symptoms develop seek medical attention.  
**First Aid Facilities:** Eye wash and normal wash room facilities.  
**Advice to Doctor:** Treat symptomatically. Consult Poisons Information Centre (Phone Aus 13 1126)

## 5 FIRE FIGHTING MEASURES

**Suitable Extinguishing Media** Non flammable. Water spray or fog, foam, dry chemical powder, BCF (where regulations permit) and carbon dioxide.  
**Hazards from Combustion:** This product is not combustible under normal conditions. However, it will break down under fire conditions and the hydrocarbon element will burn. Heating may cause expansion or decomposition leading to violent rupture of containers. The packaging is not combustible under normal conditions. However, it will break down under fire conditions and the hydrocarbon element will burn. Combustion products include combustible materials, toxic fumes of carbon monoxide (CO), poisonous fumes, corrosive fumes and acrid smoke. Mists containing combustible materials may be explosive.  
**Precautions for Fire Fighters & Special Protective Equipment** Alert Fire Brigade and tell them location and nature of hazard. Wear full body protective clothing with breathing apparatus. Prevent, by any means available, spillage from entering drains or water course. Use water delivered as a fine spray to control fire and cool adjacent area. Avoid spraying water onto liquid pools. DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.  
**Protective Clothing & Equipment** Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA)  
**Hazchem Code** No Hazchem code allocated

## 6 ACCIDENTAL RELEASE MEASURES

**Emergency Procedures:** Clean up spills immediately. Restrict access to the area of spill until completion of cleanup. Spill area will remain slippery until completion of cleanup. For spills involving the release of a significant amount of product (for example: product released by the puncture or damage of containers resulting in a spill of more than a few litres) spilled material should be stopped from spreading by containment using a barrier of sand or other inert material. Use a mop or cloth to absorb spilled material. Flush collected product to sewer. Rinse spill area thoroughly with water. Materials used for containment may be discarded to tip or landfill. Copious amounts of foam may be generated during cleanup, especially during final rinse of spill area. Foam will collapse of its own accord. Completion of cleanup of spill area will be indicated when rinse fails to generate foam. If large quantities of this material enter storm water or waterways contact the Environmental Protection Authority. Personal Protective Equipment advice is contained in Section 8 of this SDS.

## 7 HANDLING AND STORAGE

**Precautions for Safe Handling:** Chemicals' packaging is generally secure and safe, and handlers do not require special safety equipment to carry a chemical container containing this product. The product is usually dispensed directly into a sink or other tub and diluted with water. When dispensing, ensure that the risk of splashing is minimised. When product is supplied in bulk containers (5L and 15L drums) the product may be transferred into smaller bottles. When such transfer occurs, ensure risk of splashing is minimised. 15 L drums should be tapped for dispensing product (the drums are drilled and bunged for this purpose). Lifting bulk containers should be performed in accordance with the National Standard for Manual Handling [NOHSC: 1001(1990)].  
**Suitable container:** Store in original containers

# SAFETY DATA SHEET

CHESSER CHEMICALS

**Storage Incompatibilities:** No information available  
**Storage Requirements:** Store product away from incompatible materials and foodstuff containers. Store product in original containers in a cool, dry, well ventilated area away from direct sunlight. Keep containers securely sealed. Store out of reach of children.

## 8 EXPOSURE CONTROL / PERSONAL PROTECTION

**Exposure Standards:** None established for this product.  
**Engineering Controls:** Natural ventilation should be adequate under normal use conditions.

### Personal Protection Equipment

**Respiratory Protection:** Not required under normal use conditions.

**Eye Protection:** Not required under normal use conditions. Where a risk of splashing exists or when cleaning up significant spills, wear chemical goggles or full face shield.

**Skin Protection:** Not required under normal use conditions. Where a risk of splashing exists or when cleaning up significant spills, wear PVC or rubber gloves on hands and suitable impervious protective clothing. Safety boots with non-slip soles should be worn for spill clean up

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Appearance** Clear blue mobile liquid  
**Formula** Not applicable.  
**Odour** No fragrance  
**Vapour Pressure** Not applicable.  
**Vapour Density** Not applicable.  
**Boiling Point** Not applicable.  
**Melting Point** Not applicable.  
**Solubility in Water** Completely soluble  
**Specific Gravity** 1.00  
**Flash Point** Not applicable  
**pH** 7.2 (Neat at 25°C)  
**Additional Information** Not applicable.

## 10 STABILITY AND REACTIVITY

**Chemical Stability:** Stable under normal conditions of storage, handling and use.  
**Conditions to Avoid:** None known  
**Incompatibilities Materials:** No information available for this product  
**Hazardous Decomposition Products:** No information available for this product  
**Hazardous Reactions:** No information available for this product

## 11 TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

**Inhalation:** This product is not thought to produce adverse health effects or irritation of the respiratory tract.

**Ingestion:** This product is not harmful by ingestion when assessed against criteria of Safe Work Australia. This product may still produce nausea, vomiting, diarrhoea and abdominal pain. May cause chemical burns to the mouth, oesophagus and gastrointestinal tract.

**Skin:** Contact with skin may result in severe irritation. Corrosive to skin. Prolonged contact can cause skin burns.

**Eye:** Contact with eyes will cause severe irritation and chemical burns. Corrosive to eyes. Prolonged contamination can result in permanent injury or blindness.

**Chronic effects:** Repeated skin contact may lead to dermatitis or skin sensitising.

**Toxicology Information:** No toxicity data available for this product

## 12 ECOLOGICAL INFORMATION

**Ecotoxicity:** No toxicity data available for this product
