Note:
CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: AUTO DISHWASH POWDER

AUTO DISHWASH POWDER is a granular white powder with a mild chlorine odour. Recommended for use in commercial or domestic dishwashing machines.

FEATURES

- AUTO DISHWASH POWDER contains a high level of phosphate. These soften the water, and so prevent scale formation in the dishwasher.
- It also contains chlorine to bleach out tannin stains in tea and coffee cups.

HOW & WHERE TO USE

- To use in commercial machines, such as a Hobart AM100 or AM12, add ½ cup of AUTO DISHWASH POWDER to the wash tank initially, then add 1 teaspoon per rack washed to maintain performance.
- For commercial machines with a smaller wash tank of around 30 litres capacity, add ¼ cup initially.
- In domestic machines add 3-4 teaspoons to the dispensing compartment.

SAFETY INFORMATION

MEDIUM Hazard Rating

Chesser Traffic Lights Hazard indicator system

HAZARDOUS according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

SIGNAL WORD:

DANGER

 **Emergency Response No:** **CHEMWATCH** **1800 951 288**

RECOMMENDED PPE

Health hazards

H314
H335
AUH031

GLOVES

EYE PROTECTION

Causes severe skin burns and eye damage
May cause respiratory irritation
Contact with acids liberates toxic gas
