Note: CHESSER CHEMICALS Pty., Ltd., provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: **BIO FAZE**

BIO FILM TREATMENT and DRAIN SANITISER

DESCRIPTION

BIO FAZE is an alkaline cleaner sanitiser with a unique ability to hydrolyse the mucilaginous components of Bio-Film and destroy the entrained bacteria.

BIO FAZE bactericidal properties are based on a peroxy quaternary ammonium combination that acts as a powerful algacide, bactericide and fungicide.

BIO FAZE is effective in hard water.

APPLICATION

DRAINS: wet surface area around drain and sprinkle **BIO FAZE** over the area, the powder activates on becoming wet. Use a stiff brush or deck scum to push the **BIO FAZE** into and around the drain. Allow adequate contact (5 minutes) and rinse with potable water. **BIO FAZE** can be diluted with water (1:20 250g per 5 Litre) and applied manually or as a foam. Once mixed with water **BIO FAZE** should be used within 24 hours.

SAFETY AND FIRST AID

HIGH Hazard Rating

Chesser Traffic Lights Hazard indicator system

HAZARDOUS according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

SIGNAL WORD: DANGER

Emergency Response No: **CHEMWATCH 1800 951 288**

RECOMMENDED PPE

Health hazards

H312

Harmful in contact with skin

H314

Causes severe skin burns and eye damage.
