CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: CLEAR SHOT

Description: Heavy Duty acidic cleaner for toilet bowls and urinals

FEATURES

- Clear Shot is a moderately viscous clear blue liquid with a fresh lavender fragrance. It is a heavy duty clear for cleaning toilet bowls and urinals.
- Clear Shot contains a blend of phosphoric and organic acids. These acids remove both hard water scale and brown discolouration due to iron from toilets. Clear Shot is a heavy duty product designed for areas with hard water that causes bad scale problems.
- Clear Shot also contains a blend of detergents and a high level of fragrance for general cleaning and excellent deodorising.
- The viscous nature of Clear Shot gives it cling to vertical surfaces for greater contact time and hence more effective cleaning

HOW & WHERE TO USE

- To clean toilet bowls apply neat around bowl. Spread around all surfaces with a toilet brush, and then leave for two minutes before flushing. In urinals flush first, then squirt Clear Shot along the top and allow to run down. Spread over all surfaces with a toilet brush, leave for two minutes then flush.
- When cleaning toilet bowls never add Clear Shot to a bowl containing a chlorinated product such as Bleach or poisonous gases will be given off.
- Clear Shot is a heavy duty product designed for areas with bad scale problems. If the scale is light we recommend Clear Fresh instead. Clear Fresh is based on citric acid and is safer to use. It also contains more detergents and is the ideal product for cleaning showers
