Note:

CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: **COMMERCIAL LAUNDRY POWDER**

Economical Floral Laundry Powder

FEATURES & BENEFITS

- Commercial Laundry Powder is an economical laundry detergent suitable for use in top or frontloading washing machines. Commercial Laundry Powder is a free flowing white powder with a floral fragrance.
- Commercial Laundry Powder combines good performance in hard or soft water with a very competitive price.
- Commercial Laundry Powder contains water softening agents, alkaline builders, anionic and non-ionic detergents for good all round performance. It does not contain any in built bleach so can be used with chlorine or oxygen bleaches.
- Commercial Laundry Powder is a low to medium foam product and can be used in top loading or front-loading washing machines. It is suitable for use in domestic or commercial washers.

HOW & WHERE TO USE

- In a medium sized top loader, around 5kg capacity use from 1/3 to 1/2 cup. Add a little extra for heavy soiling, or an extra large load.
- For front loaders use at a rate of cup per 5kg capacity.
- Commercial Laundry Powder is also suitable for hand washing. Use from 1/8 cup in a bucket to 1/4 cup in a laundry trough. Wear rubber gloves if you have sensitive skin.
- Do not use on wool or silk. For these fabrics we recommend Chesser Woolly Wash.
