It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.*

## Product: DIAMONDS RINSE AID

**DIAMONDS Rinse Aid is added to the final rinse in dishwashing machines to make the water sheet off evenly to reduce drying time and leave items sparkling.**

### FEATURES

- DIAMONDS Rinse Aid can be used in all dishwashers from large commercial machines down to domestic.
- DIAMONDS Rinse Aid is designed for use in hard water areas in conjunction with Ultra Tech. The special additives in DIAMONDS Rinse Aid will keep the rinse lines and jets scale free, whilst the Ultra Tech keeps the rest of the machine scale free.
- DIAMONDS Rinse Aid is a concentrated rinse aid. Only a small amount is needed per cycle so a drum lasts a long time.
- The special blend of low foam detergents used makes the water sheet off easily, leading to reduced spotting and streaking, making glasses sparkle.

### HOW & WHERE TO USE

- In commercial dishwashers DIAMONDS Rinse Aid is usually added through an automatic feeder. This is adjusted by a Chesser technician to give optimum results.
- In domestic machines simply add DIAMONDS Rinse Aid to the rinse aid holding tank when required.

### SAFETY AND FIRST AID

**NOT HAZARDOUS** according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

**SIGNAL WORD**      None

**Emergency Response No:** **CHEMWATCH** **1800 951 288**
