Note:

CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: EXTRA KLEEN HD

Heavy Duty Grease & Fat Remover

FEATURES

- Extra Kleen HD is a heavy duty cleaner containing high levels of alkalis, plus caustic potash and detergents for fast, effective removal of greases and fats. It quickly strips fats off the floors making them clean and non-slip.
- Extra Kleen HD is a multi-functional product and can replace a number of products with one. It can be used to clean floors and equipment. In addition it is also suitable for cleaning ovens, grills and deep fryers.

HOW & WHERE TO USE

- Before using ensure you have protective equipment, such as gloves and safety goggles. To clean floors and equipment use at dilutions from 1:20 for extremely heavy soiling, to 1:40 (1 cup in 10 litres of water) for heavily soiled surfaces such as kitchen floors and food processing areas.
- Warm to hot water will help break down heavy fat deposits as it softens the fat
- Always rinse all food contact surfaces with potable water after use.
- If using Extra Kleen HD in a trigger spray, turn nozzle to give a coarse spray. Never use a mist spray as it is very irritating.
- Use neat on oven and grill plates.
- To clean ovens, put on gloves and safety goggles. Pour Extra Kleen HD into a labelled trigger spray and adjust nozzle to give a coarse spray. Allow oven to cool until just warm, then slowly spray over surfaces starting with the bottom and sides, and finishing with the top. Spray at arm's length and avoid breathing any spray mist. Scrub stubborn areas with a scourer, then rinse thoroughly with a wet cloth.
- To clean deep fryers, drain out oil and fill with water. Add 1 cupful of Extra Kleen HD per 10 litres capacity and heat till nearly boiling. Turn off deep fryer then leave to soak for a few hours, drain and rinse with plenty of water. Dry and refill with oil.

SAFETY AND FIRST AID

HAZARDOUS according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

SIGNAL WORD:

DANGER

 Emergency Response No: **CHEMWATCH** 1800 951 288

RECOMMENDED PPE

Hazards

H290

May be corrosive to metals

H314

Causes severe skin burns and eye damage.
