Note: CHESSER CHEMICALS Pty., Ltd., provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: FREE ZONE AIR FRESHENER

Free Zone is a clear purple liquid with an exotic floral spicy fragrance. It is a deodorant space spray designed to kill odours in rooms and carpets.

FEATURES

- Free Zone contains a high level of an exotic fragrance. This means the product will deodorise the room for extended periods.
- Free Zone is a bulk product dispensed through a trigger spray. This makes it much more economical than aerosol products, and also better for the environment.
- Free Zone also contains a quaternary ammonium compound. When sprayed over carpet this helps kill odour causing bacteria.

HOW TO USE

- Simply dispense into a trigger spray and adjust to give a fine spray. Spray into the air to deodorise rooms, or directly onto carpets and other surfaces with a bad odour.
- Use Free Zone neat, do not dilute with water.
- Do not spray directly over people, pets or over fish tanks.
