Note:

CHESSER CHEMICALS Pty., Ltd., provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: MAGNUM DETERGENT

Premium Grade non-Caustic Automatic Machine Dishwashing Detergent

FEATURES

- Magnum is the new safer approach to machine dishwashing and glass washing. The formulation is non caustic and contains a unique blend of alkalis, dispersants and scale inhibitors. It makes dispensing product into glass washers much safer.
- Magnum is available in a carton of 3 x 5 litres for manual addition to glass washers, or in the 15 litre drum for use with an automatic electronic dispenser system.
- Magnum has been designed for use in hard or soft water. At its economical use dilution of 1.5g/l it keeps machines scale free even in hard water.
- A special blend of corrosion inhibitors in Magnum protects your machine, crockery, glasses and pots and pans.

HOW & WHERE TO USE

- Magnum can be used on commercial dishwashers or glass washers. On dishwashers it is dispensed by an electronic or venturi feeder, or added manually to the wash tank.
- For glass washers that need manual addition dilute Magnum with water before adding to detergent tank. Refer to label for directions.
- Magnum is designed for use in commercial dishwashers and glass washers. Do not use for manual dishwashing or glass washing.
