CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: NATURAL ORANGE CLEANER

Natural Orange Cleaner is a clear orange liquid with a fresh orange and mango scent. This is a versatile multi-purpose cleaner that can be used on all washable surfaces.

FEATURES

- Natural Orange Cleaner is moderately alkaline. This gives it good cleaning ability, yet it is not classified as hazardous or as a poison, and so is safe and pleasant to use.
- Natural Orange Cleaner is also safe for the environment. The phosphate free formula uses a naturally derived water softening agent, solvents made from orange oil and sugar cane, plus rapidly biodegradable detergents.
- The special streak free formula can be used on any washable surface, and makes cooker tops, fridges and basins sparkle.
- Natural Orange Cleaner has a fresh fruity fragrance with orange, mango and other fresh fruity notes making cleaning a pleasure

HOW & WHERE TO USE

- In a bucket use at dilutions from 1:40 (1/2 cup in a bucket) for heavy soiling, to 1:80 (1/4 cup in a bucket) for general cleaning.
- In a trigger spray the normal dilution is 1:20 (25ml in a trigger spray bottle). This can be reduced for light duty applications such as wiping down tables, or increased up to 1:10 for heavy duty cleaning.
