CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: RTU SANITISER

Ready To Use Sanitiser for Food Preparation Areas

Active ingredient: Quaternary ammonium compound

FEATURES

- RTU is ready to use so it is always at the correct dilution. No more residues left on surface from the use of concentrated solutions.
- RTU contains a blend of sanitiser, detergent and a solvent. The solvent assists in rapid drying and a streak free finish.
- RTU can be used as a spray and wipe cleaner/sanitiser for very lightly soiled surfaces, or sprayed over clean surfaces as a leave on sanitiser.
- Surfaces should be clean and free of major food soiling before applying RTU. Contains 200 ppm Quaternary ammonium compound.

HOW & WHERE TO USE

- Use RTU on all surfaces in kitchens and other food preparation areas. Remove any heavy soiling, then spray over surfaces and wipe off.
- RTU is ideal for work surfaces, fridge and microwave doors and handles, chopping boards, food mixers, meat slicers etc.
- For critical surfaces such as chopping boards, clean thoroughly, then spray with RTU and leave to act for at least 10 minutes. For maximum effect spray at end of day and leave overnight.

SAFETY AND FIRST AID LOW Hazard Rating

Chesser Traffic Lights Hazard indicator system

HAZARDOUS according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

SIGNAL WORD: WARNING

Emergency Response No: **CHEMWATCH** 1800 951 288

RECOMMENDED PPE NOT APPLICABLE

Hazard H227 Combustible liquid

Poisons Schedule (SUSMP): Not Scheduled
