*CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.*

## Product: REFRESHER TABS

**Refresher Tabs are used to deodorise in toilet areas.**

### FEATURES

- Refresher Tabs are cube shaped blocks of compressed deodorant crystals with a lavender fragrance.
- Refresher Tabs volatilise into the air and quickly cover foul odours in toilet areas.
- They also have insect repelling properties and will reduce problems with insects in toilet areas.

### HOW & WHERE TO USE

- Refresher Tabs are a powerful deodorant so only need to be used sparingly. Most users place a few in the urinal trough, or on top of walls.
- As the Refresher Tabs volatilise into the air they are not water soluble, another method is to put a few into a muslin bag and hang up in the toilet area. This prevents problems with small fragments of the blocks being washed into drains and causing blockages.
- Refresher Tabs are toxic if swallowed and should be handled with gloves or tongs to prevent skin contact.
- Always close container lid after use or the blocks will volatilise in the tin and eventually disappear.

## SAFETY INFORMATION

## MEDIUM Hazard Rating

*Chesser Traffic Lights Hazard indicator system*

**HAZARDOUS** according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

**SIGNAL WORD: WARNING**

 **Emergency Response No: CHEMWATCH 1800 951 288**
