Note:

CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: SANIDET

Cleaner/Sanitise

Active Ingredient Quaternary Ammonium Compound

DESCRIPTION

- SANIDET is a quaternary ammonium compound based cleaner sanitiser for cleaning hard surfaces in Food Processing establishments.
- SANIDET contains 3.1% Quaternary Ammonium compound and Non-ionic surfactants.
- SANIDET is effective in hard water.
- SANIDET is suitable for use in Glass Washers to wash and sanitise Beer Glasses

APPLICATION

- Use SANIDET on clean or lightly soiled surfaces. If soiling is heavy pre-clean before using SANIDET.
- Apply to surface to be cleaned using a sponge or mop, thoroughly wet surface and agitate.
- Use at a dilution of 1:50.
- Food contact surfaces should be rinsed with potable water after use of SANIDET.
- Do not mix any soaps, detergents or other chemicals with SANIDET or deactivation may occur.
- Dispose of diluted solution at completion of task and always make up fresh solution before use.
