Note: CHESSER CHEMICALS Pty., Ltd., provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: **ULTRA WASH CONCENTRATE**

Premium Grade Machine Dishwashing Liquid with High Descaling Ability Automatically Dispensed

FEATURES

- Ultra Wash Concentrate contains a special blend of five scale control ingredients. These act synergistically to prevent scale forming even when used at a low concentration.
- Ultra Wash Concentrate is concentrated with a use dilution in the range 1.0 to 1.5g/l. With electronic control to ensure accurate dosage the product is highly economical to use.
- Ultra Wash Concentrate contains a blend of corrosion inhibitors to protect your dishwasher, crockery and pots and pans.
- Ultra Wash Concentrate is extremely easy to use as it is automatically dispensed by an electronic feeder.

HOW & WHERE TO USE

- When the drum is empty simply remove the dip tube and put it into the new Ultra Wash Concentrate drum. Take care to ensure no product is dripped or splashed onto the skin. Safety goggles are recommended to protect your eyes.
- Ultra Wash Concentrate must only be used through an electronic feeder. It should not be added manually or used for manual dishwashing.
