It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.*

## Product: **ULTRA WASH RINSE**

**ULTRA WASH RINSE is added to the final rinse in dishwashing machines to make the water sheet off evenly to reduce drying time and leave items sparkling.**

### FEATURES

- ULTRA WASH RINSE can be used in all dishwashers from large commercial machines down to domestic.
- ULTRA WASH RINSE is designed for use in hard water areas in conjunction with Ultra Tech. The special additives in ULTRA WASH RINSE will keep the rinse lines and jets scale free, whilst the Ultra Tech keeps the rest of the machine scale free.
- ULTRA WASH RINSE is a concentrated rinse aid. Only a small amount is needed per cycle so a drum lasts a long time.
- The special blend of low foam detergents used makes the water sheet off easily, leading to reduced spotting and streaking, making glasses sparkle.

### HOW & WHERE TO USE

- In commercial dishwashers ULTRA WASH RINSE is usually added through an automatic feeder. This is adjusted by a Chesser technician to give optimum results.
- In domestic machines simply add ULTRA WASH RINSE to the rinse aid holding tank when required.

### SAFETY AND FIRST AID

#### LOW Hazard Rating

Chesser Traffic Lights Hazard indicator system

**HAZARDOUS** according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals

**SIGNAL WORD:**

**WARNING**

#### HAZARDS

H227

H319

Combustible liquid

Causes serious eye irritation

**Emergency Response No: **CHEMWATCH** 1800 951 288**
