CHESSER CHEMICALS Pty., Ltd. provides the information submitted in this Product Information Sheet based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

Product: WINDOW CLEANER

Window Cleaner is a clear blue liquid with an ammonia odour. It is used for cleaning windows, mirrors and shiny surfaces such as chrome and stainless steel.

FEATURES

- Window Cleaner is a clear blue liquid with an ammonia odour. It is used for cleaning windows, mirrors and shiny surfaces such as chrome and stainless steel.
- Window Cleaner contains a special blend of solvents and detergents which enables it to dry quickly to a streak free finish. This makes the job fast and easy and always leads to excellent results.
- Window Cleaner contains a special blend of solvents and ammonia to help with grease cutting, but the blend used does not lead to irritation or choking even in enclosed spaces.

HOW & WHERE TO USE

- Decant into a trigger spray. Window Cleaner is best used neat. If soil levels are low it may be diluted with some water, but this will increase drying time.
- Spray onto window, mirror or other surfaces, then wipe off with a paper towel or clean absorbent cloth. If using cloths cotton gives best results.
- Adjust trigger spray to give a fairly coarse spray pattern. If adjusted too fine it will form a mist which will waste product and may lead to irritation.
- Window Cleaner may be used on windows, mirrors, polished stainless steel, chrome, etc. It is ideal for car detailing as well as general housekeeping.
